Attorney for Applicant

AMENDMENT AND RESPONSE

Dear Sir:

Please amend the above-reference patent application as follows:

In the Claims

1. 60. (Amended) A system for transmitting laser energy via a optical fiber to a surgical site comprising:

a laser energy source operating at a wavelength in a range of about 1.4 - 2.2 micrometers; and

[an] a flexible, elongate optical fiber for conducting laser energy from a proximal end of said fiber to a surgical site at a distal end of said fiber, the proximal end being coupled to the output of said laser energy source, and said fiber being a silica fiber having a low hydroxyl ion content to reduce absorption of said laser energy during transmission through said fiber.
